

Canine Detection of Urological Cancer

We are carrying out pioneering Research into the detection of urological cancer in your local hospital and we would love to tell you about our study and show you the Medical Detection Dogs in action!

Presentations and demonstrations taking place on Wednesday 23rd March 2016, in the Education Centre at Milton Keynes University Hospital

With a choice of time slots: From 5.00pm till 6.00pm or 6.30pm till 7.30pm

There will also be an opportunity to take part as we are looking for healthy volunteers aged 18-40 to donate a urine sample

To book a place to secure the time slot of your choice for the seminar or to become a healthy volunteer please contact Stephanie Edwards
